

## PRESS RELEASE

### **BLACK & CREAM**

Following a careful revisit of the classics from a contemporary perspective, Arcana Ceramica has created Black & Cream, an extensive collection of porcelain floor and wall tiles, which bring the most traditional colours and designs in the world of decoration right up-to-date and to the highest level, with a discreet, undulating texture accompanying the subtle embossment.

The elegant, yet challenging combinations bring a modernness to the series that is rarely seen in Ceramic interior design. Black & Cream seeks out the natural simplicity of the materials, making them ideal for use on their own in more serene spaces, whilst offering the possibility of bringing a controlled sophistication through the use of exclusive special pieces, which raise the tone.

#### Black & Cream Porcelain Floor Tiles

There are six base tiles in the porcelain Black & Cream collection: Cream Dune (the only colour available in 120x120), Black Night, Cream Beach, Brown Wash, Black Space and Green Giada. All tiles are available in the following sizes: 59,3x59,3; 60x60; 80x80; 19,4x120; 60x120 as well as two mosaic sheets, which are perfectly combinable with each other as a result of the chip sizes utilised.

The greatest sophistication is brought to the series by the Checkers Rounded and Checkers Starry tiles. These exceptional special pieces, with rounded edges, are available in all the colours and designs the range offers. They are intended to be laid in a traditional checkerboard design.

#### Black & Cream Wall Tiles

The series offers a range of white-bodied wall tiles to combine with the porcelain tile range. Two base tiles - Cream-R Oasis and Black-R Gloom; Two embossed tiles - Cream-R Desert and Black-R Soot; And to complete the collection, Two embossed decors – Cream-R Zigzag and Black-R Braided.
