Mousse by Arcana. The “crème de la crème”

Arcana presents Mousse, a discreet collection of contemporary beauty that oozes with personality.

A convergence of styles has been responsible for the birth of the Mousse collection. The development of a white bodied wall tile in a single size and colour (45x120cm) and a porcelain floor tile in 3 different colours with a wide range of formats (120x120, 80x80, 60x120, 60x60cm) and finishes. This collection seeks its own identity that makes it unique. At the same time, the series is intended to be the ideal companion to the emblematic Spuma collection, completing it in a delicate and versatile way.

Mousse presents a new cement graphic artistically crafted using a single colour range per piece. This achieves a uniform, prudent and very elegant aesthetic, which easily adapts to the multiple projects found in architectural and interior design of the here and now.

The textures, compositions and special pieces that accompany the Mousse bases, both for wall and floor tiles, together with all the items in the firm's Spuma collection, greatly enhance its attractive, decorative offering.
